DIRECTION OF SALAA

Qibla – physical turning to the centre of the earth.

“when you face the Qibla..... empty your heart of whatever takes your attention from Allahand stand on the foot of fear and hope.”

Imam Ja’far As-Sadiq (pbuh)

From the hadith write 2 sentences of your understanding of “to stand with fear and hope”.

DIRECTION OF SALAA

It is wajib to face Qibla when praying all the wajib salawaat.

Qibla can be ascertained from:

1. Convincing means- compass, mobile apps or a reliable person.
2. Mihrab of a mosque.
3. Muslim graveyard – a Muslim is laid down on his right side in the grave, with his/her face towards Qibla.

DIRECTION OF SALAA

Whilst travelling you had no idea of the direction of Qibla and you know that the salaa will get qadhaa before you reach your destination. What would you do?

On a cardboard draw the direction of Qibla in your prayer room.

Cut, decorate and stick it on the wall.

DID YOU KNOW?

If one comes to know after praying salaa that one prayed in the wrong direction, then:

1. If one prayed **more than 90** degrees away from Qibla, then the salaa must be **REPEATED**.
2. If one prayed **less than 90** degrees away from Qibla then the salaa need **NOT** be repeated.

Name 2 instances where we face the Qibla and 1 instance when it is haram to face the Qibla.

If you went to the moon, in which direction would you pray?

RISALA CORNER

- If you had to pray in a place where people pass-by, or when someone is in front of you what would you do?
- Can you pray salaa in a place where music is playing?
- You would like to pray a mustahab “thank you” prayer as you are walking to school. Is it permissible?
